
How to issue invoices for energy storage containers

How can a storage services customer receive an invoice?

A storage services customer can receive an invoice by snail mail, email, invoicing software. If your client does not have access to either email or an online invoicing system, you will need to printing off your invoice and send it to them by regular mail.

Do I need an invoice for a business-to-consumer (B2B) transaction?

Business-to-consumer (B2C) transactions often do not need the issuance of an invoice, therefore a simple receipt for payment may suffice. However, you must submit an invoice if a client (end user) requests one. Business-to-business (B2B) transactions, as well as imports and exports, may need the use of invoices.

Can goods / materials / transportation costs be included on the same invoice?

Note: Goods / material related invoices, must not include non-related goods or material costs or transportation costs on the same invoice next to the goods / materials even in the case when the purchase order included them as separate lines.

What are storage services & how do they work?

Storage services provide a convenient solution for individuals and businesses in need of extra space to store their belongings. The cost of storage services can vary depending on several factors, including the size of the storage unit, the location of the facility, and the length of the rental period.
