
Israel lithium power storage project

What is the Israeli energy storage Council?

Based at Bar-Ilan but to be run in conjunction with the Technion-Israel Institute of Technology in the northern city of Haifa, the body will oversee the development, training, and commercialization of energy storage technologies.

Does lithium lose power?

Lithium also gradually loses power, as anyone with a cellphone will know. "The National Institute for Energy and Electrochemical Storage aims to use Israeli innovation and entrepreneurship for the benefit of the energy sector and the economy in Israel," said Energy and Infrastructure Minister Eli Cohen.

How much money does Israel spend on a new research institute?

The institute's innovative research infrastructure will serve all researchers in Israel, and its establishment is very significant news." The Energy Ministry provided NIS 100 million (\$28.4 million) for the new institute, with Bar-Ilan funding the remaining NIS 30 million (\$8.5 million).

Who inaugurated the new National Institute for energy & electrochemical storage?

Energy Minister Eli Cohen (fourth from right) helps inaugurate the new National Institute for Energy and Electrochemical Storage at Bar-Ilan University, near Tel Aviv, June 3, 2025. (Shlomi Mizrahi, Bar-Ilan University)
