
Mauritania makes outdoor power

What is Mauritania doing now?

Mauritania has just inked its first independent power producer contract which is a \$300 million agreement that was signed with Iwa Green Energy that will foresee the development of the 60-megawatt Mauritania Hybrid Solar-Wind Plant. Furthermore, the renewable energy project marks a milestone in Mauritania.

What does Mauritania's new solar-wind power plant mean for the world?

Mauritania has signed its first independent power producer contract, a \$300 million agreement with Iwa Green Energy to develop a 60-megawatt hybrid solar-wind power plant. The project marks a milestone in the country's drive to expand electricity generation through private financing while accelerating its transition to renewables.

How will Mauritania's wind power plant affect its energy mix?

The wind power plant in the northern town of Boulenouar will also significantly increase the share of the country's energy mix. The significant share of renewable energy in Mauritania's total energy portfolio is impressive, especially compared to other countries on the continent.

Who is Mauritania's first independent power producer?

Department of Communications and External Relations, media@afdb.org Mauritania has signed its first independent power producer contract, a \$300 million agreement with Iwa Green Energy to develop a 60-megawatt hybrid solar-wind power plant.
