
New Energy Storage Innovation Consortium

This announcement aligns with the recent formation of the Central Enterprise New Energy Storage Innovation Consortium. The consortium has outlined 57 key research and ...

On August 8, 2022, the China New Energy Storage Industry Innovation Alliance was established in Beijing. The alliance was initiated by China ...

The two Energy Innovation Hub teams are the Energy Storage Research Alliance (ESRA) led by Argonne National Laboratory and the Aqueous Battery Consortium (ABC) led ...

Researchers at the Sustainable Power and Energy Center (SPEC) of the University of California San Diego are part of two cutting ...

Company NewsSummary: Recently, the innovation consortium of central enterprises in the field of new energy storage in China was officially launched. Guided by the State-owned Assets ...

On July 30 th, the new energy storage innovation consortium of central enterprises has been established in Beijing. Under the guidance of the State-owned Assets Supervision and ...

The Central Enterprises New Energy Storage Innovation Consortium is an important practice in implementing the new nationwide system, a crucial lever for driving the ...

On August 21, the launch conference of the central enterprise green hydrogen energy production, storage and transportation innovation consortium was held in Beijing under ...

On August 19, 2025, the 10th Western China Energy Storage Forum grandly opened in Hohhot, Inner Mongolia. This forum was hosted by the China Energy Research Society, China Energy ...

The awards were made through the Storage Innovations 2030: Technology Liftoff so-called funding opportunity announcement to advance energy storage innovations.

On July 30, the Central Enterprise New Energy Storage Innovation Consortium was established in Beijing. The consortium is a national-level new energy storage innovation ...

On July 30, the Central Enterprise New Energy Storage Innovation Consortium was established in Beijing. The consortium is a national-level new energy storage innovation platform jointly led ...

The Central Enterprise Green Hydrogen Energy Production, Storage, and Transportation Innovation Consortium was launched in ...

Register here! This annual event brings together leading minds in energy storage technology and innovation for a stimulating one-day conference ...

In the context of building a new energy system, the power system is required to significantly increase the proportion of renewable energy power. However, renewable energy is volatile, ...

Over US\$5 million is being made available for developers of advanced energy storage technologies in New York.
