
Solar panels warranty 25 years

How long does a solar panel warranty last?

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts.

Do solar panels have a performance warranty?

Performance warranties are important for sizing solar systems to maintain 100% output for 25 years. It's important to note that the performance warranty guarantees the panel's ability to produce a certain amount of electricity - not that the panel will produce that amount.

What types of warranties cover solar panels?

There are two basic types of warranties that cover solar panels. A product warranty protects you from defects in a solar panel stemming from material quality or manufacturing errors. This is also referred to as an equipment or materials warranty.

How long do solar panels last?

Nowadays, most manufacturers offer at least 10 years of coverage under a product warranty, while some premium options have 25 or even 30+ years of protection against product defects. What happens if your module is no longer available? It's unlikely, but let's say a solar panel breaks after nine years. Things happen.
