Is Tunisia building a solar power plant?

Tunisia has commenced construction on two 10 MW solar projects in Kasserine Governorate, developed by energy firms Qair and Mazarine. In September 2024, the country also began building a 50 MW solar plant in Tozeur, a TND 135 million project led by Norway's Scatec and Toyota subsidiary Aeolus.

How many wind projects will Tunisia have in 2025?

Tunisia's Industry, Mines, and Energy Ministry also plans to receive bids for at least two wind projects, each with a capacity of 75 MW, by the end of March 2025, the statement adds. Tunisia has commenced construction on two 10 MW solar projects in Kasserine Governorate, developed by energy firms Qair and Mazarine.

How is Tunisia accelerating its energy transition?

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with growing energy dependency, Tunisia is taking a decisive step forward in its commitment to renewable energy.

What is the productivity of photovoltaic systems in Tunisia?

Given these favourable conditions, the productivity of photovoltaic systems in Tunisia is very high. According to the International Renewable Energy Agency's (IRENA) Global Atlas, annual electricity production from PV systems ranges from 1,450 kWh per kilowatt peak (kWp) in the northwest to 1,830 kWh/kWp in the extreme southeast.

The Minister of Energy and Mines, Fatima Chiboub, along with Faycal Trifa, Managing Director of Sociéte Tunisienne d'Electricité et ...

Of this, 244 MW was wind power, 166 MW solar power, and 62 MW of hydroelectric power. These renewable sources comprise 8% of the national energy capacity, an aspect that ...

Tunisia previously awarded five photovoltaic solar energy projects with a combined capacity of 500 MW across five governorates: ...

New contracts for 498 MW of solar PV projects bring Tunisia closer to its renewable energy ambitions. But a '35% by 2030' renewables target looks out of reach.

After years of delays, Tunisia is accelerating deployment of its large-scale photovoltaic (PV) sector. The Ministry of Industry, Mines, and Energy said construction ...

Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of 500 MW.

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four

solar PV projects in Tunisia, with a combined capacity of 500 MW. France's ...

Tunisia is advancing utility-scale solar through a series of tenders, including the latest procurement round launched in January ...

Tunisia previously awarded five photovoltaic solar energy projects with a combined capacity of 500 MW across five governorates: 200 MW in Tataouine, 50 MW in ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a ...

Tunisia has signed contracts for four photovoltaic projects, totaling 500 MW, as part of the initial phase of its 1.7 GW tender. Set to ...

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with ...

Tunisia is advancing utility-scale solar through a series of tenders, including the latest procurement round launched in January 2023. It previously completed a 500 MW solar ...

Of this, 244MW was wind power, 166 MW solar power, and 62 MW of hydroelectric power. These renewable sources comprise 8% of ...

The Minister of Energy and Mines, Fatima Chiboub, along with Faycal Trifa, Managing Director of Sociéété Tunisienne d'ÉÉlectricitéé et de Gaz, and representatives from ...

Tunisia has signed contracts for four photovoltaic projects, totaling 500 MW, as part of the initial phase of its 1.7 GW tender. Set to be operational by 2027, these projects aim to ...
