Are solar panels backed by manufacturer warranties?

Homeowners can trust that their solar system components are backed by the manufacturer's commitment to quality and longevity. As solar panels are a substantial investment,understanding and leveraging manufacturer warranties contribute significantly to a homeowner's confidence in the durability and reliability of their solar installation.

How long does PV warranty insurance last?

Check out in 140 seconds how you will benefit from our PV Warranty Insurance for up to 30 years. Our PV Warranty Insurance is straightforward and effective: manufacturers protect their ability to pay excessive warranty claims on modules for a period of 25 years (up to 30 years for glass-glass modules).

What is a solar warranty?

This warranty ensures that the work meets industry standards and is free from defects in the workmanship of the solar project. Typically, it covers issues that arise due to improper installation, wiring, or poor workmanship rather than problems with the solar components used.

The warranty period for power optimizers is typically in the 25-year range. Considerations: When evaluating the warranty of a string inverter, it's essential to understand what the warranty ...
