
Wellington 180MW PV 15MW energy storage project

Who owns the Wellington Battery energy storage system?

It now fully owns the battery storage facility. AMPYR Australia is now the full owner of the Wellington Battery Energy Storage System (BESS) after acquiring Shell Energy Australia's 50% stake in the project's stage 1. In a statement, AMPYR said it had been joint venture partners with Shell in the New South Wales project since October 2022.

What is the Wellington Bess project?

"The Wellington BESS will contribute towards supporting Australia's journey towards a more sustainable and reliable energy future," said RJE Global in a statement. The project sits within the Dubbo Regional Council LGA and is part of broader efforts to boost storage infrastructure as renewable penetration increases across the NEM.

Where is the Wellington Stage 1 battery located?

On Tuesday, the company announced it had reached financial close on the 300 MW, 600 MWh Wellington stage 1 battery, which is located next to the existing Wellington and Wellington North solar farms in western NSW.

Where will the bulabul battery connect to the Transgrid Wellington substation?

The Bulabul Battery is adjacent to and will connect to the Transgrid Wellington substation. The Transgrid Wellington substation is a key point on Transgrid's 330kV transmission network, connecting renewable energy resources with electricity consumers across NSW.

The joint venture is collaborating with Honeywell to integrate Vietnam's first grid-connected battery energy storage system (BESS) ...

Developer J&V Energy has entered the utility-scale solar PV sector in the Philippines by acquiring a 180MW power plant in General ...
